AFTER YOUR ROOT CANAL TREATMENT

1. Please eat soft food only until the permanent filling is done by your general dentist. This should be done in approximately 2 weeks unless otherwise directed. Remember there is only a temporary filling in the treated tooth. Please call your dentist to book the appointment for the permanent filling. We will send the appropriate information to your dentist.
2. Keep the treated area clean with gentle brushing, flossing and salt water rinsing.
3. Please take 2 or 3 (200mg.) Advil with food if needed after your treatment. If you cannot take Advil then you may take Tylenol or a prescribed pain medication. The Advil may be taken every 6-8 hours as needed.
4. Please make sure to book a 6 month recall appointment with our office.
5. If there are any questions or concerns please call 416-230-3430 after hours.
